KHOWANG COLLEGE

District- Dibrugarh

Assam-785675

Introduction

All institution needs the support and cooperation of its stakeholders for its smooth functioning. The primary stakeholders of a college are the students, teachers, alumni. The stakeholders of an institution and their feedback are of paramount importance in order to enhance its quality. To improve a holistic development of the institution, feedback has been recorded from various stakeholders is necessary and resourceful.

Students:

The role of students in a college plays a significant role. The education system is built for the students so that they can become responsible and knowledgeable citizen of the future. It's they who need to determine what suits worthy for them. Which makes the feedback an important one.

Teachers:

Followed by students, teachers plays an important stakeholders of an institution. Engagement of teachers directly in various curricular activities. They are the pillars of knowledge, under whose guidance students imbibe various knowledge. their honest reaction in the feedback responses help in framing what's required for the growth of an institution

Alumni

Playing the third major stakeholder, Alumni has the potentiality to reflect the proper image and judgement of the amenities available in the college
